

Feel the Wind™

COMPACT & POWERFUL
MFS 25/30

We have achieved the lightest weight in its class and improved reliability, without sacrificing performance. Tohatsu strives to deliver a smarter and more exciting boating experience.

Available in a wide variety of options, MFS25/30D will meet whatever configuration you need for your boat.

EFFICIENT AND POWERFUL

Best in class power-to-weight ratio provides excellent performance for all styles of boats from light weight to heavy weight. Optimized gear ratio 2.17:1 gives you better low end torque and the ability to turn a higher pitch prop for better top end performance.
